STATEMENT OF COMPATIBILITY

between
Kaspersky Industrial CyberSecurity
the product of
AO “Kaspersky Lab”
39A/2 Leningradskoe Shosse,
Moscow, 125212, the Russian Federation
hereinafter referred to as “KICS” and “Kaspersky” respectively
and
AGAT-2000
the product of
OJSC «AGAT – Control Systems»
117 Nezavisimosti Avenue, Minsk, 220114, Republic of Belarus
hereinafter referred to as «AGAT-2000» and «AGAT – Control Systems» respectively.

AGAT – Control Systems and Kaspersky Lab hereby declare the possibility of mutual apply of the aforesaid software products in unified information system in order to provide meeting certain information security requirements for automated process control systems (hereinafter referred to as APCS) these products are run in.

AGAT-2000 is a software complex for creation of automated systems for operational, technological and situational control of electric power facilities. KICS is an integrated solution providing information security for APCS.

AGAT – Control Systems and Kaspersky Lab jointly tested AGAT-2000 and KICS systems for compatibility within a unified information system. The tests proved that, taking into account individual requirements for the environment, the products could be used within a unified information system. The tests have not revealed any compatibility problems.
