STATEMENT OF COMPATIBILITY
between
Kaspersky Industrial CyberSecurity
the product of
AO “Kaspersky Lab”
39A/2 Leningradskoe Shosse,
Moscow, 125212, the Russian Federation
hereinafter referred to as “KICS” and “Kaspersky” respectively
and
Software and hardware complex “SURA”
the product of
JSC “Elara”
40 Moscow Ave., Cheboksary, Russia
hereinafter referred to as «SURA» and «Elara» respectively.

Elara and Kaspersky Lab hereby declare the possibility of mutual apply of the mentioned software products in unified information system, compatibility of these software products, allowing to meet certain information security requirements for automated process control systems (hereinafter referred to as APCS), these products are mutually run:

Elara and Kaspersky Lab tested SURA and KICS compatibility within unified information system. Tests proved the possibility of use the products in unified information system, taking into account their individual environmental requirements. The tests have not revealed any compatibility problems in products.

Jointly established that within the unified information system functionality of SURA and KICS their functionality, according to requirements and installation and control guidelines, ensure compliance with part of information security requirements imposed on APCS.

Besides installing and using both products, other measures may be necessary to complete all information security requirements for each specific class of automated systems. The actual measures taken should depend on the specific information security requirements for the object, as well as the APCS architecture of the object. Such measures may include, but are not limited to,
установку и использование других программных или аппаратных продуктов, соответствующее конфигурирование продуктов и создание или корректировку организационных процессов.
